

Remembrance experience for all

April the 9th, 2024, from 2.30 to 5.30 pm
A Meeting on Zoom

Archives: learning by practicing

Archives are strategic tools when building effective teaching and educational paths.

The Meeting is an opportunity to present the projects referred to the study of the Shoah, based on archival sources: an opportunity for education, dissemination and training, straddling between civic education, history and education to citizenry. The Meeting will also create a cross country synergic relation, to depict a common European history and the potential of exchanges among the various experiences.
